Revises the circumstances under which a "change in ownership" of real property owned by a legal entity is deemed to have occurred. Specifically, provides that, when 100% of ownership interests in a legal entity are sold or transferred in a single transaction, the purchase or transfer of that interest is considered to be a "change of ownership" of the real property owned by the entity, thus, triggering a reassessment of the property for tax purposes. Specifies that a "sale or transfer" of ownership interests in a legal entity means a merger, acquisition, private equity buyout, transfer of partnership shares, or any other means by which a legal entity acquires the ownership interest of another legal entity, including the subsidiaries or affiliates of the legal entity and the property owned by those subsidiaries and affiliates. Finally, it states that a purchase or transfer of 100% of ownership interests in a legal entity is considered to be a "change of ownership" of the real property owned by that entity, whether or not any one legal entity that is a party to the transaction acquires more than 50% of the ownership interests. Defines the term "legal entity" as a corporation, a partnership, a limited liability company, or other legal entity.

AB 2498 (Skinner). INCOME TAXATION: ABUSIVE TAX AVOIDANCE
TRANSACTIONS: VOLUNTARY COMPLIANCE INITIATIVE.

Requires the Franchise Tax Board (FTB) to develop and administer a voluntary compliance initiative (VCI), as specified, to be operative from January 1, 2011, until April 15, 2011. Specifically, it provides that the VCI would allow a taxpayer to avoid specified penalties and tax liabilities that may be imposed as a result of the use of abusive tax avoidance transactions that occurred in taxable years beginning before January 1, 2011, provided the taxpayer files an amended return and pays the tax due. Authorizes the FTB to add interest, penalties, or additions to tax relating to any abusive tax avoidance transaction, as defined, even if the FTB has not provided the taxpayer with a notice. Removes the "reasonable cause" exception for avoiding the underpayment penalties if the underpayment is a result of an abusive tax avoidance transaction for specified taxpayers. Extends the penalty for aiding and abetting to certain persons and increases the amount of penalties. Modifies the definition of a "reportable transaction" for purposes of the income tax laws to include a "transaction of interest," as defined. Provides that an imposition of a penalty for promoting abusive tax shelters and aiding and abetting an understatement of tax liability constitutes grounds for disbarment or suspension of an attorney's license and for revocation, suspension, or refusal to renew the license of a registered public accounting firm, any person associated with a public accounting firm, or a tax preparer.

SB 401 (Wolk). TAXATION: FEDERAL CONFORMITY.

Changes California's specified date of conformity to federal income tax law from January 1, 2005 to January 1, 2009, and thereby, generally conforms California tax laws to numerous changes made to federal income tax law during that four-year period. Among other federal provisions, this bill conforms to the American Recovery and Reinvestment Act (ARRA) of 2009 [Public Law (P.L.) 111-5] to create an exclusion from gross income for federal energy grants received by a taxpayer, in lieu of the federal energy credits, pursuant to Section 1603 of the ARRA. It also fully conforms to Internal Revenue Code (IRC) Section 121(b)(4), to allow a surviving spouse to exclude from his/her gross income up to \$500,000 (instead of \$250,000) of the gain from the sale or exchange of the principal residence owned jointly with a deceased spouse, provided that the sale or exchange occurs within two years of the death of the spouse. Finally, by reference to federal tax law, it permits a solvent individual taxpayer to exclude from his/her gross income an amount of qualified principal residence indebtedness discharged by the lender on or after January 1, 2009, and before January 1, 2013.

Specifically, it (1) suspends the net operating loss deduction under the Personal Income Tax and the Corporation Tax Laws, for the 2010 and 2011 tax years, (2) authorizes corporate taxpayers who do not elect, or are not eligible to elect, the single sales factor apportionment formula to use the cost of performance method in assigning their sales of property other than tangible personal property, and (3) allows for an exemption from the application of the 20% corporate understatement penalty for those taxpayers whose understatement is below a specified percentage

threshold of their total tax liability. In addition, it provides that persons that are required to report and remit the use tax on the purchase of tangible personal property may elect to report and remit the tax on an acceptable tax return and requires the State Board of Equalization to assess a collection cost recovery fee for their costs associated with collecting various fees and taxes from businesses and individuals who have been non-compliant.

This bill also authorizes BOE to grant a reasonable extension of time for filing 2009 returns pursuant to this program, as specified, and waives all penalties for reporting periods 2007, 2008, and 2009, provided the qualified purchaser pays all use tax liability for those periods by March 15, 2011.

In addition, this bill removes residency in a targeted employment area as an element of eligibility. Specifies that, in order to qualify for the daily interest calculation, the taxpayer must file a request for an oral hearing before BOE, the payment must be no more than one day late, and the taxpayer must be granted relief from all penalties

that applied to the payment. Finally, it disallows the modification of interest computation for any payment made pursuant to a deficiency determination, a determination where no return has been filed, or a jeopardy determination.

SB 1391 (Yee). INCOME TAXES: BUSINESS TAX INCENTIVES: REPORTING INFORMATION AND RECAPTURE.

Requires a taxpayer doing business in the state and claiming any new business tax incentive, as specified, under either the Personal Income Tax Law or the Corporation Tax Law to include annually, for tax years beginning on or after January 1, 2011, on the timely filed original return, the number of employees employed by the taxpayer in the state for the current and preceding taxable years. Exempts from these reporting requirements taxpayers with 25 or fewer employees that have net business income, as defined, of less than \$500,000 for the taxable year.

Applies only to a business tax incentive that is allowed by an act that takes effect beginning on or after January 1, 2011, and is enacted with the purpose of creating new jobs in the state. Provides that the new business tax incentive may be recaptured by the state if the taxpayer has a "net decrease" in the number of full-time equivalent employees, as specified. Defines "business tax incentive" as a credit, deduction, exclusion, exemption, or any other tax benefit, added to either Part 10 or Part 11 of the Revenue and Taxation Code (R&TC) by an act that takes effect beginning on or after January 1, 2011, and allowed to taxpayers engaged in or carrying on any trade, business, profession, vocation or calling, or commercial activity in the state.

Status: In Senate. Senate refuses to concur in Assembly amendments.

SB 1492 (Committee on Revenue & Taxation). INCOME TAXES: VOLUNTARY DISCLOSURE AGREEMENTS.

Makes several changes to the voluntary disclosure agreement (VDA) program, administered by the Franchise Tax Board, by allowing taxpayers to file the most recent tax return as late as the extended due date, eliminating the underpayment-of-estimated-tax penalty when imposed because the VDA is signed after the quarterly tax payment due date, and authorizing VDA applicants requesting an Installment Payment Arrangement (IPA) additional time to satisfy the VDA, if the IPA request is denied after the VDA period ends. In addition, it provides that the changes to the VDA program are effective for all VDAs entered into on or after January 1, 2011.

Status: Chapter 498, Statutes of 2010.

SB 1493 (Committee on Revenue & Taxation). PROPERTY TAXATION ASSESSOR: TAX COLLECTOR: ADMINISTRATION.

Implements several technical tax proposals relating to the administration of property tax law. Among other provisions, allows county assessors to notify a taxpayer of a change in the base year value of the property via electronic mail, in lieu of regular mail, and permits county assessors to dispose of certain paper documents. Authorizes treasurer-tax collectors to offer a tax-defaulted property, for which a property tax welfare exemption has been granted, at a price that the tax collector deems appropriate, if no acceptable bids are received at a minimum price, as defined.

Status: Chapter 185, Statutes of 2010.

SB 1494 (Committee on Revenue & Taxation). TAXATION.

Makes several changes to the property tax law, repeals duplicative provisions, and corrects erroneous cross-references. Among other provisions, precludes assessors from revoking homeowners' exemptions for disaster-affected property upon a declaration of disaster from the Governor, thereby, avoiding the need for special purpose legislation for each individual disaster. Adds a trustee to the list of persons who can file claims for the parent-child and grandparent-grandchild "change in ownership" exclusion claims on behalf of eligible transferors and transferees, and authorizes a trustee to inspect otherwise confidential claims for the exclusion previously filed. Extends the use of the existing assessment valuation methodology for inter-county pipeline rights-of-way that is otherwise scheduled to sunset on January 1, 2011, and clarifies that, in the case of assessment appeals that have not been decided yet, the two-year period before a property owner's opinion of value becomes controlling applies to supplemental and escape assessment appeals.

Status: Chapter 654, Statutes of 2010.

SCA 6 (Simitian). TAXATION: EDUCATIONAL ENTITIES: PARCEL TAX.

Lowers the threshold of voter approval necessary for school districts to enact parcel taxes. Specifically, this bill authorizes school districts, community college districts, and county offices of education to impose a parcel tax on real property by a 55% vote, instead of two-thirds vote, of the electorate in the district or county. Defines a "parcel tax" as a special tax imposed upon real property at a rate determined without regard to the property's value. It caps the total amount of parcel tax impositions, increases, or extensions submitted to voters for approval at any election by a school district, community college district, or county office of education at \$250 per parcel each year. Finally, it specifies that the governing board of the school districts, community college districts, or county offices of education must approve the proposition by two-thirds vote and that the proposition must contain a list of the specific purposes and programs to be funded, among other requirements.

GOVERNOR VETOES

AB 1718 (Blumenfield). TAXATION: PROPERTY TAX DEFERMENT.

Establishes the County Deferred Property Tax Program for Senior Citizens and Disabled Citizens, authorizes a county to elect to participate in the program by

adopting a resolution indicating the county's intention to participate in, and administer, the program, and specifies that the requirements of a county or county officials set forth in the bill are conditioned upon the county's passage of the resolution.

GOVERNOR'S VETO MESSAGE:

"The goal of this bill is laudable. However, the bill inappropriately grants counties a super priority lien on a participating senior or disabled individual's residential property. Not only would an individual's participation in a county program violate their mortgage contract, it would most likely render them unable to obtain future loans.

"I believe that the lending and mortgage industry agree with the intent of this measure. The author would be well-served by working with them and the counties next year to craft a solution that provides a workable and legally acceptable tax deferral program for seniors and disabled individuals struggling to maintain their residential property."

AB 2017 (Hall). PERSONAL INCOME TAXES: VOLUNTARY CONTRIBUTIONS: CALIFORNIA YOUTH LEADERSHIP FUND.

Authorizes the addition of the California Youth Leadership Fund (Fund) checkoff to the personal income tax form upon the removal of another voluntary contribution fund from the form. Provides that if the Fund collects less than \$250,000, all remaining moneys shall be equally distributed between the California YMCA Youth and Government Program, for its ongoing activities on behalf of youth, and the Joint Committee on Rules to support the California Youth Legislature, established by SB 516 (DeSaulnier) of the current legislative session.

GOVERNOR'S VETO MESSAGE:

"This bill is contingent on the enactment of Senate Bill 516, which I cannot support. I would ask that the authors of these bills reconcile their efforts to support greater youth involvement in public policy without creating additional organizations when there are numerous organizations and entities already dedicated to working with youth from all backgrounds."

AB 2060 (Charles Calderon). PUBLIC CONTRACTS: FIXED PRICE CONTRACTS: SALES AND USE TAXES RATE CHANGES: TRANSACTIONS AND USE TAXES.

Requires a fixed price contract, as specified, between a government entity and a contractor to authorize payment for a change in the contract price that is attributable to an increase or decrease in the state sales and use tax rate, with the increase or decrease paid in accordance with the contract terms or as agreed to by the parties.

GOVERNOR'S VETO MESSAGE:

"First, I can understand the impact of new taxes on businesses and the frustration that contractors may have when they are not exempted from sales tax increases. This is one of the reasons I have continued to oppose raising additional taxes because it slows our state's economic recovery efforts and dampens job creation. However, this bill seeks an overly broad and permanent exemption which effectively shifts the burden of

paying both state and local sales tax increases from the contractor to the government entity and ultimately, on California's taxpayers. In addition, I believe this bill is unnecessary because current law allows an exemption to fixed-price contracts for city and county tax increases, and such exemptions have been allowed on past statewide sales and use tax increases. I believe this process is appropriate and does not affect district tax revenues, as this bill would propose to do. For these reasons, I am unable to sign this bill."

AB 2458 (Saldana). TAXATION: PENALTIES: LIMITED LIABILITY COMPANIES.

Extends the due date for the payment of penalties imposed on small businesses, as defined, for underpaying the limited liability company fee.

GOVERNOR'S VETO MESSAGE:

"This bill would result in unfunded costs to the Franchise Tax Board and revenue losses to the state General Fund. In addition, the Franchise Tax Board already has the authority to work out a payment plan for any individual or organization issued an underpayment penalty."

AB 2666 (Skinner). CORPORATION TAXES: FRANCHISE TAX BOARD: TAX EXPENDITURES: REPORTING TRANSPARENCY IN GOVERNMENT INTERNET WEB SITE.

Requires the Franchise Tax Board to compile information on tax expenditures claimed and reported by publicly traded companies and requires the State Chief Information Officer to publish this information on the Reporting Transparency in Government Internet Web site.

GOVERNOR'S VETO MESSAGE:

"My Administration has consistently supported efforts for greater transparency in government, including the "Reporting Transparency in Government" website. However, this bill inappropriately seeks to publish confidential tax information for no apparent benefit. The Franchise Tax Board and the Department of Finance already publish annual reports detailing all tax expenditures, their cost, their intended benefit and other useful information. The Franchise Tax Board also publishes an annual well-known list that identifies the largest 250 tax delinquencies of individual and business taxpayers. I am unclear as to the need for this bill, other than for the sponsor to continue to provoke and alienate businesses attempting to create jobs and economic recovery in California."

AB 2676 (Ma). STATE BOARD OF EQUALIZATION: ADMINISTRATION.

Implements a number of tax-related proposals sponsored by the State Board of Equalization (BOE). Specifically, reinstates and makes permanent the statutory provisions allowing taxpayers to elect to report and remit qualified use tax on an acceptable income tax return. Further provides that, upon suspension of a "closely held corporation" or "closely held limited liability company," certain individuals shall be held personally liable for any unpaid sales or use tax liability of that business entity

incurred during the period of suspension. Also adds personal liability provisions comparable to those contained in Revenue and Taxation Code Section 6829 to various special tax and fee programs that BOE administers. Finally, grants BOE authority to use the information contained in the Employment Development Department's new employee registry for tax or fee enforcement purposes.

GOVERNOR'S VETO MESSAGE:

"The most significant provisions of this bill have already been addressed by the Budget Conference Committee. Thus, this bill is unnecessary."

SB 516 (DeSaulnier). CALIFORNIA YOUTH LEGISLATURE.

Establishes the California Youth Legislature (CYL), composed of students, to provide model legislation and advocate for the needs of youth. Specifically, provides that the CYL will be funded by monies from the California Youth Leadership Fund, if this bill and AB 2017 (Hall) become law. Further provides that the CYL shall examine and discuss policy and fiscal issues affecting the interests, needs, and conditions of the youth of California. The CYL shall also formally advise and make recommendations to the Legislature and the Governor on specific issues affecting youth.

GOVERNOR'S VETO MESSAGE:

"This bill is similar to a measure I vetoed in 2008. I still encourage California youth to engage in the public policy issues that directly impact their lives such as education, employment, foster care, homelessness, and more. However, as most parents and adults can attest, I would also argue that youth do not need statutory authorization to have their voices and opinions heard. There are numerous organizations, entities and communications in which youth can be engaged in our legislative process. For these reasons, I am unable to sign this bill."

SB 1272 (Wolk). INCOME AND CORPORATION TAXES: CREDITS: INFORMATION AND OPERATIVE LIMITATIONS.

Provides that a new tax credit, enacted by a bill introduced on or after January 1, 2011, shall be operative for a period of seven years and shall include specified goals, objectives, and purposes, as well as other detailed information relating to the credit's effectiveness.

GOVERNOR'S VETO MESSAGE:

"While the sponsors seem intent on eliminating measures that will generate jobs and stimulate the economy, the average California taxpayer would probably be better served if the Legislature were willing to automatically sunset every new spending entitlement, program expansion and business mandate after seven years. For this reason, I am unable to sign this bill."

SBx8 32 (Wolk & Leno). TAXATION: FEDERAL CONFORMITY.

Changes California's specified date of conformity to federal income tax law from January 1, 2005, to January 1, 2009, and thereby, generally conforms to numerous changes made to federal income tax law during that four-year period.

GOVERNOR'S VETO MESSAGE:

"This bill is similar to legislation I vetoed last fall. In my veto message, I expressed disappointment that the multi-year process of drafting a consensus bill on federal tax conformity was derailed by the last minute insertion of a provision that was objectionable to many of the parties involved in the process. A version of that provision remains in this bill and as such I cannot support it. I have made my objections clear, both publicly and privately, to legislative leaders on numerous occasions. This veto should not come as a surprise to them, as I have told them for weeks that I cannot support the bill as written and have encouraged them, both publicly and privately, to act on revised legislation.

'Before discussing the provision of the bill I continue to find objectionable, I would like to express my strong support for two provisions in the measure. First, is the provision to extend the law providing mortgage debt forgiveness to those Californians who have gone through a "short sale" process. I signed a law in 2008 that forgave this debt for two years and I am supportive of extending this law. In fact, Assemblyman Niello, a Republican, and Senators Calderon and Correa, both Democrats, have introduced stand-alone measures to extend the law. Given the bipartisan support for extending this provision, it would have been easy for the Legislature to pass a bill before adjourning for their spring vacations. Unfortunately, the Legislature chose not to act.

'I also support ensuring that federal economic stimulus grants received for renewable energy projects are not treated as income for tax purposes. California is one of the only states in the nation that considers the receipt of federal stimulus grants under the American Recovery and Reinvestment Act as taxable income for renewable projects. Renewable companies are currently establishing the financing to build their California projects. If California adds millions of dollars of cost by taxing federal stimulus grants, these projects will die. Again, legislation with bi-partisan support is already introduced on this topic and could have been passed before the Legislature left Sacramento.

'Regarding the objectionable provision of this bill, I do not oppose appropriate penalties on taxpayers who fail to pay what they owe or try to manipulate tax law. As part of the 2008 budget solution, California added the highest penalty in the nation on companies that understate their taxes. The purpose of this penalty was to encourage companies to err on the side of overpayment, thus accelerating revenues for the state. The proposed federal penalty in this bill impacts the same taxpayers. The interaction between the two penalties is unfair. The state has forced many of these taxpayers to overestimate their tax payments in order to address our budget crisis and, under this bill, we would then penalize them if the tax refund they claimed is too high. I cannot support this policy. If the members of the Legislature want to have a separate discussion about ways to make the federal penalty operational in California in conjunction with the state penalty, I am open to that discussion.

'For these reasons, I am returning this bill without my signature. I encourage the Legislature to immediately pass revised legislation on the matters addressed above.'
